# Why ATETOOL?

1

## Close-loop Technology

Patented close-loop automatic constant temperature control technology to ensure high stability, excellent performance and precise accuracy.

2

## PID Technology

Built-in PID system to ensure high stability, excellent performance and precise soldering accuracy.

3

## Power Response Technology

Sufficient power and wide temperature range to meet your soldering project needs.

4

## Fast Compensation Technology

Precise temperature calibration and fast temperature compensation available, it helps to correct temperature fast and accurately after replacing heaters or whenever there's temperature deviation

5

## Integrated active tip

High performance plug-and-play integrated active tip with PCT ceramic heating element. Convenient to change tips.

# Soldering Iron

## AE 680

### Features

- 80W to enable fast heating up.
- High performance plug-and-play integrated active tip, can reach melting point within 9 seconds.
- Patented close-loop automatic constant temperature control technology.
- Precise temperature calibration and fast temperature compensation available.
- Silicone handle sleeve for high temperature resistance.

### Accessories

T60-B

### Plug

US

EU

UK

### Specification

Item No.	AE 680
Power	80W
Input voltage	110VAC/230VAC
Temperature range	200-500°C(392-932°F)
Heating element	T60 series integrated active heater
Power cord length	1.5m
Net weight	170g
Temperature stability	±2°C/±4°F (when temp. >200°C/400°F)
Tip to ground resistance	<0.1Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Soldering iron, 1x User manual

# Soldering Iron

## AE 680D

### Features

- OLED display for easy and clear menu operation.
- °C/°F conversion to suit different using habit.
- Auto standby & sleep function to ensure property safety and extend tip service life.
- Temperature lock function to prevent from adjusting temperature improperly.
- High performance plug and play integrated active tip, can reach melting point within 9 seconds.
- Precise temperature calibration and fast temperature compensation available.

### Accessories

T60-B

### Plug

EU

UK

### Specification

Item No.	AE 680D
Power	80W
Input voltage	110VAC/230VAC
Temperature range	100-500°C(212-932°F)
Digital display	0.96 inch OLED
Heating element	T60 series integrated active heater
Power cord length	0.65m
Handle cable length	1.25m
Net weight	190g
Temperature stability	±2°C/±4°F (when temp. > 200°C/400°F)
Tip to ground resistance	<0.1Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Soldering iron, 1x Control main unit 1x Magnetic base, 1x User manual

# Soldering Iron

**AE 540**

## Features

- 40W to enable fast heating up.
- Ceramic heater provides high performance and long service life.
- Patented close-loop automatic constant temperature control technology.
- 350°C, 400°C, 450°C for choice.
- Precise temperature calibration and fast temperature compensation available.

## Accessories

Heating element

## Plug

US

EU

UK

## Specification

Item No.	AE 540
Power	40W
Input voltage	110VAC/230VAC
Temperature range	350°C(662°F)/ 400°C(752°F)/ 450°C(842°F)
Heating element	two-core PTC heating element
Power cord length	1.5m
Net weight	90g
Temperature stability	±5°C/±9°F (when temp. > 200°C/400°F)
Warranty	12 months
Packing list	1x Soldering iron 1x User manual

# Soldering Iron

## AE 560W

### Features

- 60W to enable fast heating up.
- Ceramic heater provides high performance and long service life.
- Patented close-loop automatic constant temperature control technology.
- Slim and light-weight handle suitable for all kinds of soldering process.
- Precise temperature calibration and fast temperature compensation available.

### Specification

Item No.	AE 560W
Power	60W
Input voltage	110VAC/230VAC
Temperature range	200-500°C(392-932°F)
Heating element	two-core PTC heating element
Power cord length	0.5m
Handle cable length	1.2m
Net weight	174g
Temperature stability	±5°C/±9°F (when temp. > 200°C/400°F)
Tip to ground resistance	<2Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Soldering iron 1x User manual

# Soldering Station

## AE 689A

### Features

- Auto standby & sleep function to ensure property safety and extend tip service life.
- Temperature lock function to prevent from adjusting temperature improperly.
- Silicone handle sleeve for high temperature resistance.
- Built-in PID system to ensure high stability, excellent performance and precise accuracy.
- Precise temperature calibration and fast temperature compensation available.

### Specification

Item No.	AE 689A
Power	60W
Input voltage	110VAC/230VAC
Temperature range	100-500°C(212-932°F)
Heating element	two-core PTC heating element
Soldering tip	900M-T series tip
Power cord length	1.2m
Handle cable length	1.2m
Net weight	560g
Temperature stability	±2°C/±4°F (when temp. > 200°C/400°F)
Tip to ground resistance	<2Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Main unit, 1x Handle, 1x Tin wire frame, 1x User manual, 1x Sponge OR, 1x brass wool

# Soldering Station

## Features

- 60W to enable fast heating up.
- Built-in PID system to ensure high stability, excellent performance and precise accuracy.
- Auto standby & sleep function to ensure property safety and extend tip service life.
- Temperature lock function to prevent from adjusting temperature improperly.

## Specification

Item No.	AE 689C
Power	60W
Input voltage	110VAC/230VAC
Temperature range	100-500°C(212-932°F)
Heating element	two-core PTC heating element
Soldering tip	900M-T series tip
Power cord length	1.2m
Handle cable length	1.2m
Net weight	660g
Temperature stability	±2°C/±4°F (when temp. >200°C/400°F)
Tip to ground resistance	<2Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Main unit, 1x Handle, 1x Tin wire frame, 1x User manual, 1x Sponge

# Soldering Station

## AE 988

### Features

- 70W ceramic heater to enable fast heating up.
- High temp resistant, bent-proof handle cable for safe soldering.
- Patented close-loop automatic constant temperature control technology.
- Precise temperature calibration and fast temperature compensation available.
- Silicone handle sleeve for high temperature resistance.

### Accessories

AH 808

### Specification

Item No.	AE 988
Power	70W
Input voltage	110VAC/230VAC
Temperature range	200-480°C(392-896°F)
Heating element	two-core PTC heating element
Soldering tip	900M-T series tip
Product dimension	148x120x85mm
Handle cable length	1.2m
Main unit net weight	1.32kg
Handle net weight	79kg
Temperature stability	±2°C/±4°F (when tempe. >200°C/400°F)
Tip to ground resistance	<2Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Main unit, 1x Handle, 1x Iron stand, 1x User manual, 1x Brass wool

# Soldering Station

## AE 988D

### Features

- Built-in PID system to ensure high stability, excellent performance and precise accuracy.
- Auto standby & sleep function to ensure property safety and extend tip service life.
- Temperature lock function to prevent from adjusting temperature improperly.
- Silicone handle sleeve for high temperature resistance.
- Temperature calibration.

### Accessories

AH 803

AH 817

AH 808

### Specification

Item No.	AE 988D
Power	70W
Input voltage	110VAC/230VAC
Output voltage	25VAC
Temperature range	50-500°C(122-932°F)
Heating element	two-core PTC heating element
Soldering tip	900M-T series tip
Product dimension	148x120x85mm
Handle cable length	1.2m
Main unit net weight	1.33kg
Handle net weight	79kg
Temperature stability	±1°C/±1.8°F (when temp. >200°C/400°F)
Tip to ground resistance	<2Ω
Tip to ground voltage	<2mV
Warranty	12 months
Packing list	1x Main unit, 1x Handle, 1x Iron stand, 1x User manual, 1x Brass wool

# Soldering Station

## AE 970

- Features**
- High performance plug-and-play integrated active tip, can reach melting point within 9 seconds.
  - Patented close-loop automatic constant temperature control technology.
  - Precise temperature calibration and fast temperature compensation available.
  - High temp resistant, bent-proof handle cable for safe soldering.

## Environmental protection and sustainability

ATETOOL continuously strives to reduce the company's environmental impact as much as possible by using environment-friendly resources, and to reduce the amount of emission and waste. We meet or exceed all valid environmental regulations.

ATETOOL products shall be constructed in such a way that the environmental impact is minimized concerning:

- Manufacturing, with no leads
- Usage
- Disposal, as less plastic usage as possible

ATETOOL processes, workplaces and work methods shall be well planned, so our products can be manufactured with minimal environmental impact to ensure health and safety, and prevent injury.

ATETOOL is willing to contribute herself for a future worth living, for our children and for us.
