OUJVAN ON LED MACHINE WORK LIGHT SIGNALTOWER LIGHT

Machine tool lamp Machine tool warning light Sheet metal luminous design

Li Zhaolong [OUJVAN Engineering Director, application of machine tool lamp LED light source development]

Industry experience: 13 years. He graduated from South China University of Technology in 2005 and received his master's degree in mechanical Engineering in 2010. Three years after graduation and engaged in mechanical design, he worked as a senior executive of a world-renowned industrial lighting R&D enterprise for six years. In 2009, I replaced the traditional halogen bulb with LED light source and successfully applied it in the machine tool lamp and other industrial lamps through many experiments with my personal ability. I have become one of the well-known engineers in the industry. LED light source machine tool lamp r&d application

Zhang Weidong [OUJVAN Product Quality Director]

I have been engaged in quality management of industrial lighting industry since 2004. I have experience in quality management of Philips Lighting, Panasonic and Juzuo Lighting company. I have participated in drafting related standards of LED industrial lighting. During this period, I won 11 individual patents, the municipal Award for Excellent introduction of talents and the first prize in the Forum of High Engineering.

LED LIGHTING focus on industrial lighting

Feature:

- I: provide logo customized service. Blue light back of the logo, shine light your logo.
- 2. Built—in buzzer, Volume Max. 95dB/m.
- 3. Imported multi—color led chips, high bright, stable and long lifespan.
- 4. Modular design, flexible combination for purpose of installation.

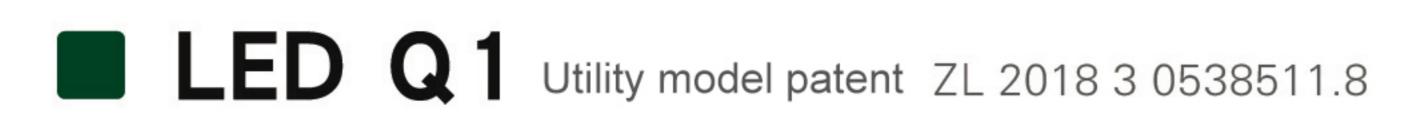

Customized luminous LOGO

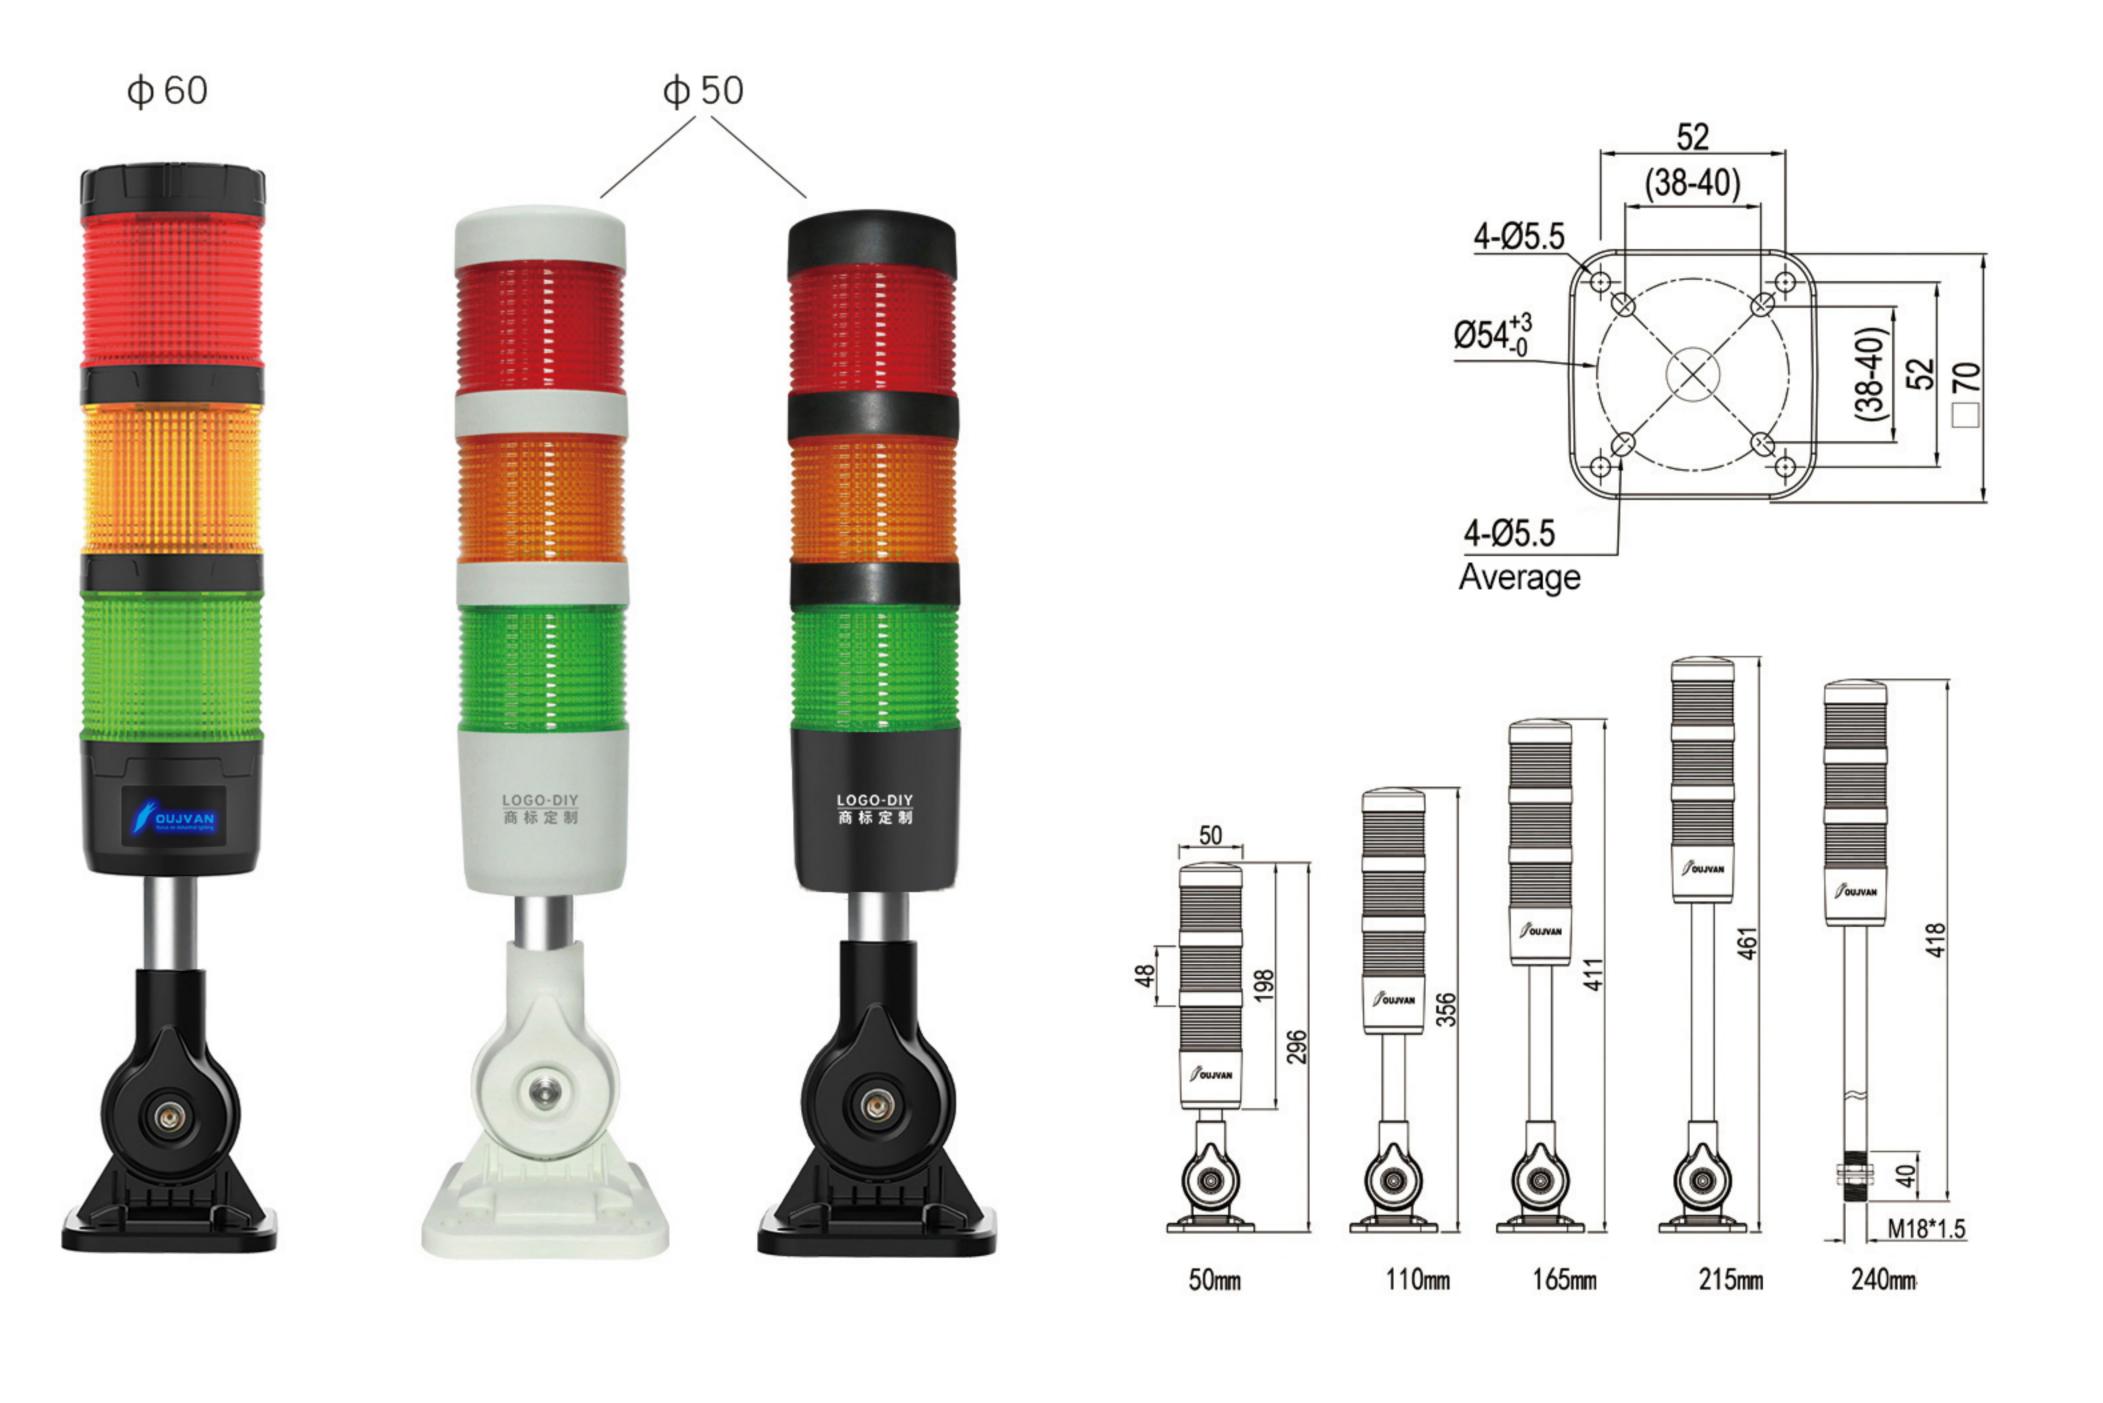

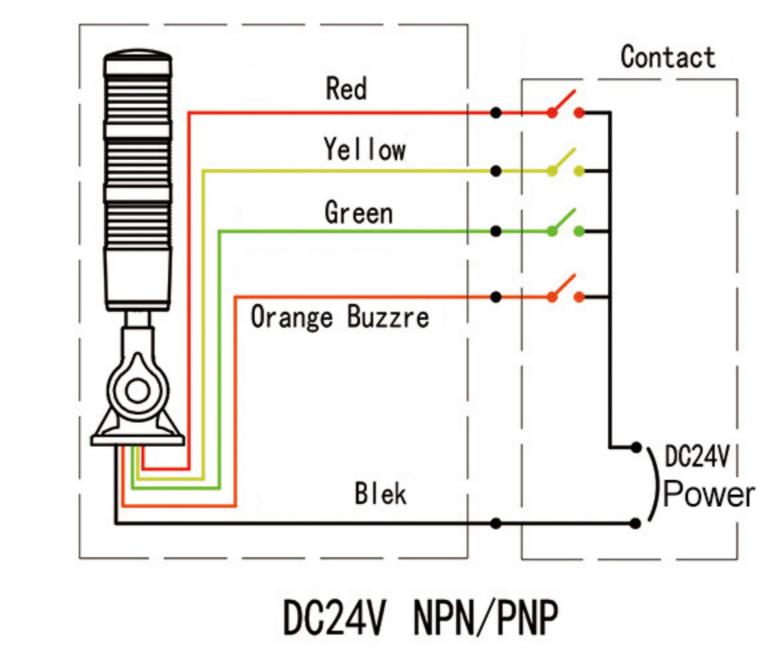

Foldable base with 180 degree limit

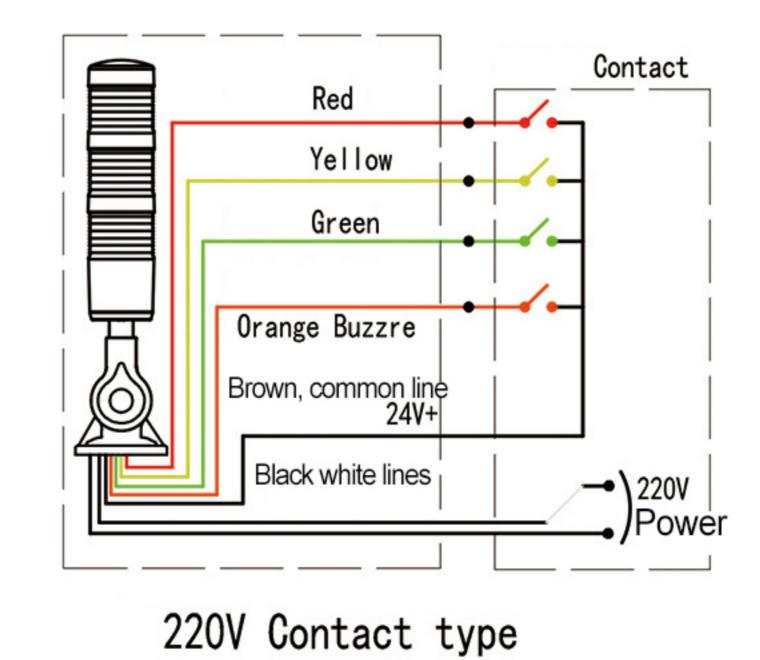

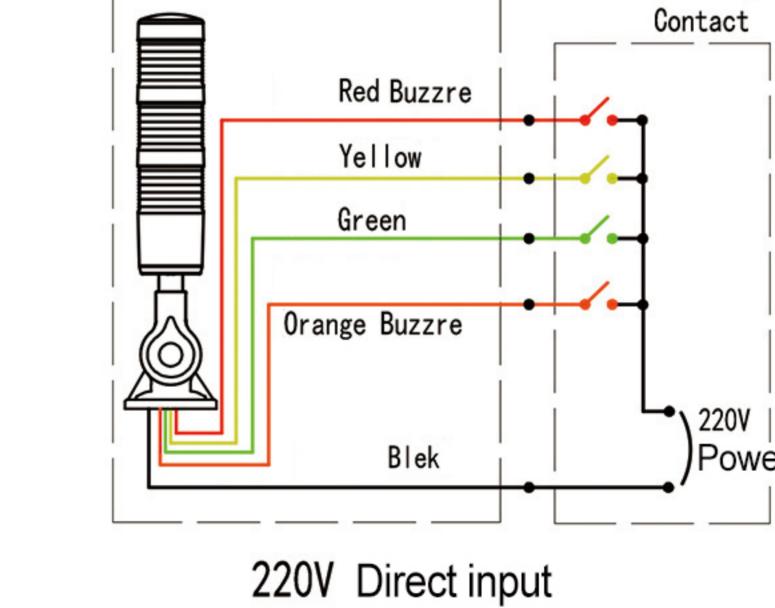

OUJVAN FOCUS ON LED MACHINE WORK LIGHT

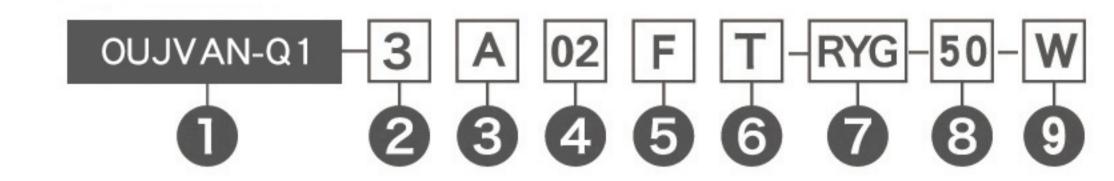

PRODUCT PARAMETERS

one color: 50mA, Buzzer: 15mA
60-70 times/mins
>95dB
IP53 (with buzzer)/IP65 (without buzzer)
<60°C
70,000H
White Black
Fixed by screw
lamp body:ABS lampshade:pc base:ABS

CODING PRINCIPLE

Model No	Q1
Layer	1 one-layer 2 two-layer 3 three-layer
Mounting	A.Foldable type E.Threaded rod installation
Voltage	01、DC12V 02、DC24 03、AC220V
Function	B. Steady S. Red flash F. Steady with buzzer C. Red flash with buzzer
Connect type	T, PNP&NPN C, Contact type
Color	R Red Y Yellow G Greer
Diameter	50、φ 50mm
Light body	W.white B.black

LED Q1T

Feature:

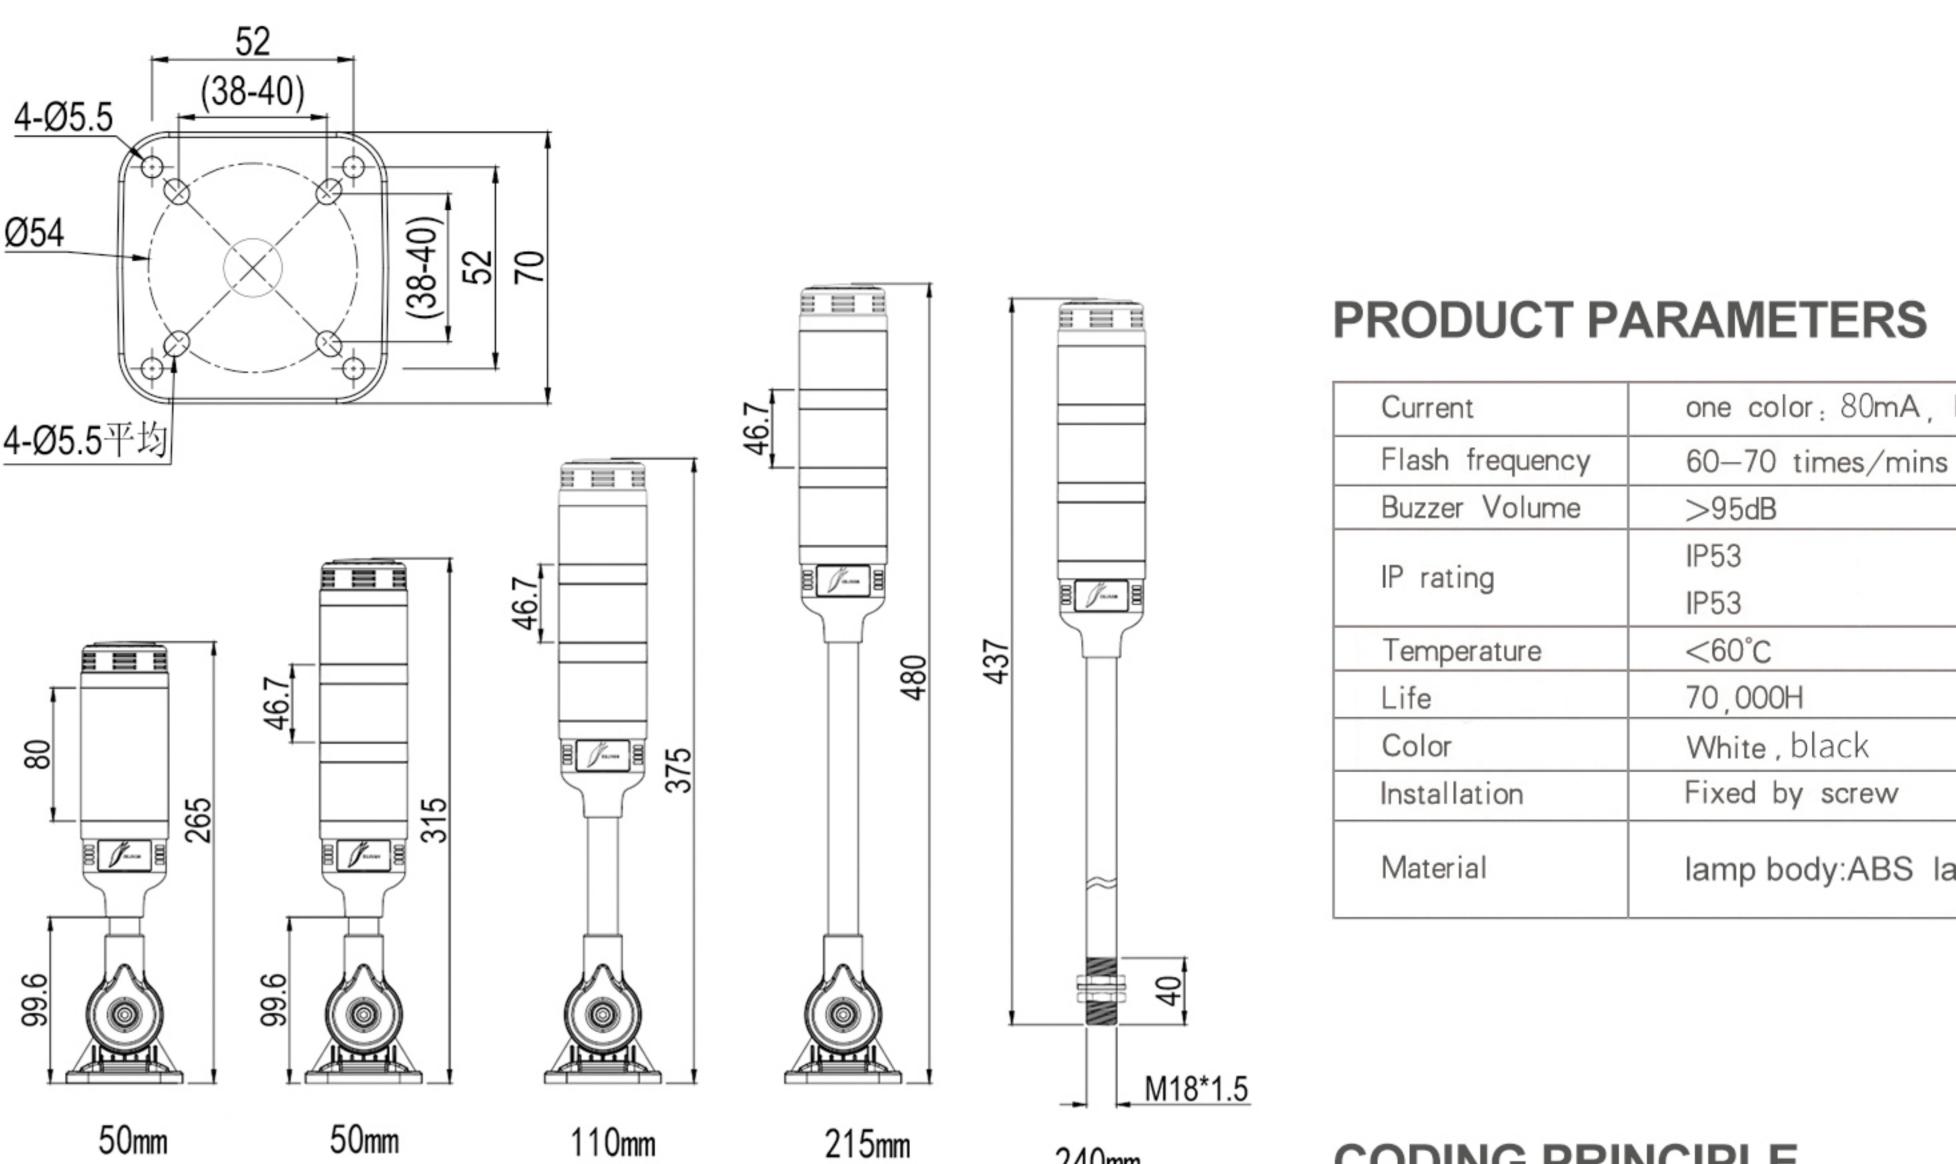

light your logo.

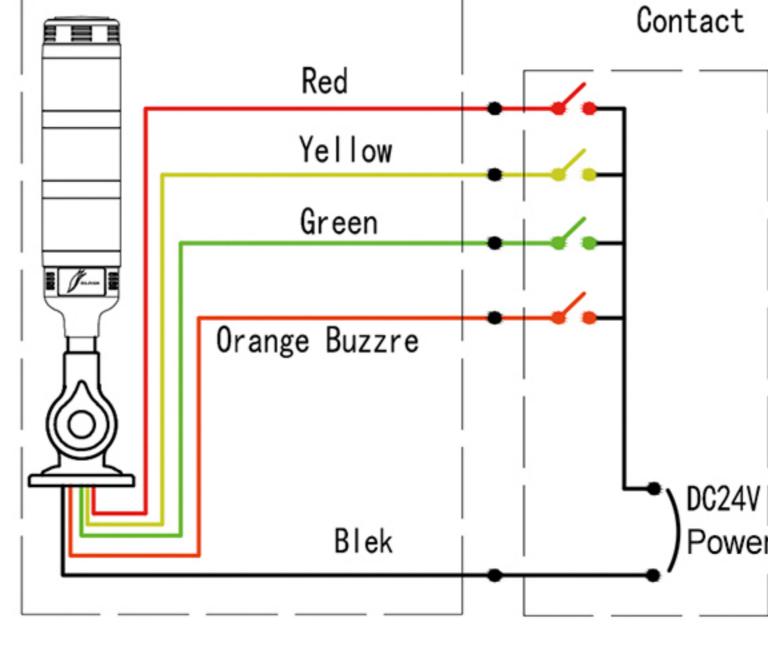

2. Built—in buzzer, Volume Max. 95dB/m.

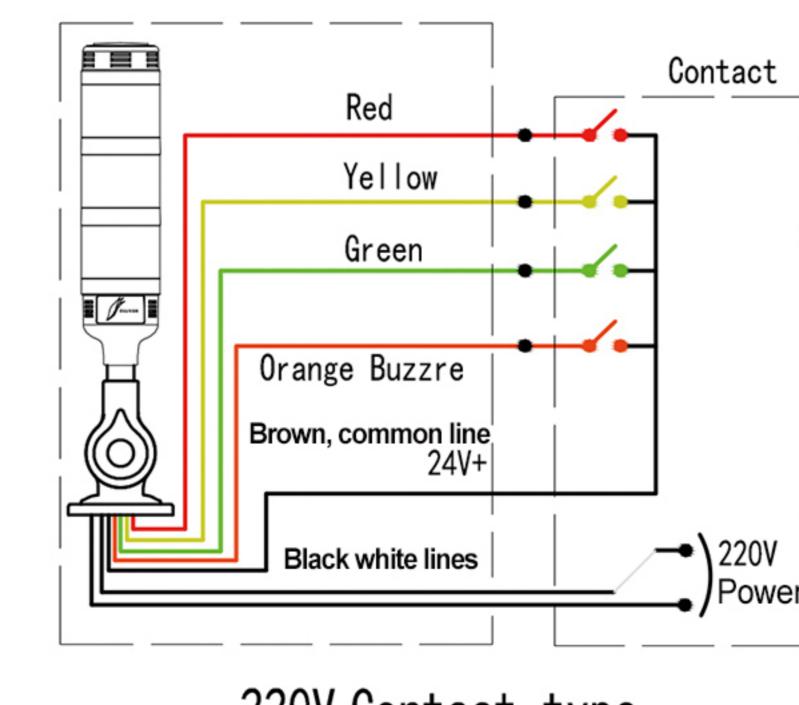

4. Flexible combination for purpose of installation.

: provide logo customized service. Blue light back of the logo, shine

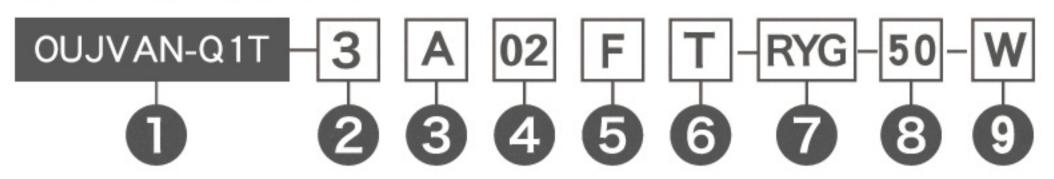

3. Imported multi—color led chips, high bright, stable and long lifespan.

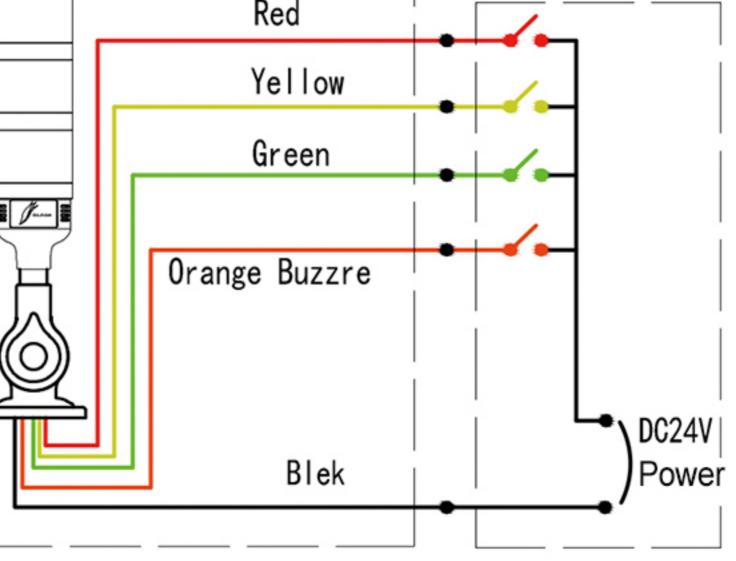

Current	one color: 80mA, Buzzer: 45mA
-lash frequency	60-70 times/mins
Buzzer Volume	>95dB
P rating	IP53
	IP53
Temperature	<60°C
_ife	70,000H
Color	White , black
nstallation	Fixed by screw
Material	lamp body:ABS lampshade:pc base:ABS

Model No	Q1T
Layer	1 one-layer 2 two-layer 3 three-layer
Mounting	A.Foldable type E.Threaded rod installation
Voltage	01、12V 02、DC24V 03、AC220V
Function	B. Steady S. Red flash F. Steady with buzzer C. Red flash with buzzer
Connect type	T, PNP&NPN C, Contact type
Shade color	R、Red Y、Yellow G、Green W、white
Diameter	50、φ 50mm
Light body	W、white B、black

DC24V NPN/PNP

220V Contact type
