1// GETTING STARTED WITH DT CONNECT

STEP 1

Visit <https://detectortesters-connect.com> to create your account.

STEP 2

Sign into the Cloud Portal to register your device. Your XTR2 comes with an extended free trial of the connected services, which starts from the moment you register your device. You will be informed via the portal and DT Connect app when your free trial is about to expire, at which point you can choose to continue with a subscription to access all features.

STEP 3

Download the DT Connect app for your smartphone device from the App Store or Google Play Store.

Get the DT Connect app

For help with DT Connect, including the app, Cloud Portal and subscriptions, scan the QR code:

2// CHARGING THE BATTERY

The battery is charged by placing the battery pack into the charge cradle and connecting to a power source using the supplied mains adaptor.

Important: XTR2 needs to be paired to the user's smart-phone via the DT Connect app before first use.

3// **INSTALLING THE GENERATOR**

Take care not to touch exposed electrical contacts when installing product components. Ensure all components are securely fitted.

- Ensure unit is switched off and open the back cover
- Insert the generator firmly, engaging clips 1 and 2

4// **INSTALLING THE SMOKE CARTRIDGE**

Slide the smoke cartridge completely into the smoke generator housing following the guide rails.

Note: Do not insert the smoke cartridge until the generator has been fully fitted.
In order to ensure maximum capacity from each new smoke cartridge, XTR2 must be paired with the DT Connect app.

5// **INSTALLING THE BATTERY**

Clip the battery into place.

USING THE CLOUD/PORTAL

The Cloud Portal can be accessed by all users with admin privileges and enables users to:

- View, download and send test reports in PDF or CSV format
- Register new devices and purchase new subscriptions
- Register new technicians or back-office staff to your company

HELP AND SUPPORT
