## PBJ Series

# Stainless Steel BEA Jamb Style Push Plates with Cherry Switch

- Narrower push plate makes an easy application on guide rails and swing doors
- These Jamb push plates fit perfectly in BEA Mounting Boxes, surface and flush mount
- Beveled edges provide a tamper and vandal-proof solution to your push plate needs, allowing no room to get objects between plate and box
- All active plate. Activates no matter where pressed.
- Stainless steel finish will not deteriorate/rust where it is touched and is scratch and scuff resistant
- Text and logo are baked onto the surface for leading durability
- Push plates come in multiple colors and styles that meet specifications and customer requests
- Weather boot between plate and back plate for all weather applications
- Lifetime warranty allows you to save money in the long run

## Components

- 1 Front Plate
- 2 Back Plate

- d. Cherry Switch: Single-pole, 15A, COM/ NO/ NC contacts
- e. 5/64" Allen key removes 6-32 mounting screws
- f. Wire nuts
- g. Mounting template

## Custom Specifications

BEA proposes a variety of custom solutions for your push plates:

**Abrasive Etching/Engraved** – This method creates a very accurate and deep "scratch" in the plate that is then filled with paint to create the custom logo/text on the surface of the plate.

**Pad Printed** – Logo/text is stamped onto the surface of the steel plate using a special pad. The logo is only printed onto the surface of the plate.

**Embossing** – This process requires the use of a special tool designed to punch the back of the face plate with the custom information. A special coating is added to create a dramatic 3D embossing for your push plate.
